**Y**ou're finally going to remodel the kitchen—or maybe you're ready to build a new home. Before you write the check for all that granite or finalize plans for a two-story great room, you may want to find out if they're still in style or if they're likely to go the way of avocado appliances. We've polled some local experts to find out what's in for 2007.

*In the kitchen, designers are mixing materials. Virginia Homes' 2006 Parade home featured painted cabinetry, a dark-stained cherry island, handscrapped walnut floors, a brushed nickel faucet, a tumbled marble backsplash, a black soapstone sink and countertops, some glass-fronted cabinets and a stainless steel refrigerator.*
